

## Tourist Visa

When applying for a tourist visa, certain documents and fees are needed. The documents and the fee are subject to change anytime and without prior notice, so please check with the embassy or consulate before applying.

For those that need to apply for a VISA we will issue an official invitation letter for the people in the delegation **to the National Organizer**. We will send more information to the National Organizer about the required details as soon as possible.

Please note:

The VISA process can take some time, so it is very important that National Organizers deliver us all the required details for the visa invitation letter immediately after you have had your National Finals!

Especially those countries that have their National Finals in the second half of September or even early October should make sure that they obtain all the information immediately after the event!
